SUMMARY

Enthusiastic BSc (Hons) Applied Science in Computing undergraduate seeking a Software Engineering or Web Development internship where I can contribute to frontend and backend development projects using MERN stack technologies while gaining practical industry experience and strengthening technical expertise.

EDUCATION

BSc (Hons) in Applied Science in Computing

Final Year Undergraduate

- University Of Jaffna

Diploma in Information Technology (DITEC)

- Esoft Metro Campus

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Material UI, Responsive Web Design
- **Backend Development:** Node.js, Express.js, Java, MVC Architecture, RESTful APIs
- **Databases:** MongoDB, MySQL
- **DevOps & Networking:** Linux Server Admin (Apache2, OpenSSL, SSH), DNS Configuration, Cisco Packet Tracer
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma
- **Methodologies:** Agile/Scrum, SDLC (Software Development Lifecycle), Jira, ClickUp

PROJECTS

Land Preparation Management System | Frontend Developer

MERN Stack, Material UI, Jira, GitHub

- **Developed responsive** UI using **React.js** and **Material UI**, ensuring a seamless mobile-first user experience.
- **Implemented MVC architecture** and robust form validations to maintain clean, scalable code and data integrity.
- **Collaborated in an Agile/Scrum** team, using **Jira** for sprint tracking and **GitHub** for version control.

Inventory Management System | Full Stack Developer

MERN Stack (React, Node.js, Express, MongoDB), Material UI, REST APIs

- **Engineered a full-stack system** with automated billing, stock control, and real-time quantity calculations.
- **Developed secure RESTful APIs** and CRUD operations using MVC architecture and MongoDB.
- **Designed a responsive, user-friendly** UI with Material UI, ensuring seamless performance across all devices.
- Managed version control using Git/GitHub, following clean code principles for a scalable codebase.

Personal Portfolio Website | Developer

HTML, CSS, JavaScript, Netlify

- **Designed and developed** a fully **responsive** portfolio website, optimizing UI/UX for all screen sizes and browsers.
- **Implemented interactive features** using JavaScript to enhance user navigation and showcase technical projects.
- **Managed deployment** and hosting via **Netlify**, ensuring fast load times and secure public access.

Channeling Center Management System | Developer

React.js, Material UI, Node.js, Express.js, MongoDB

Academic Group Project – Ongoing

- Built a **responsive patient management interface** using React.js and Material UI.
- Developed **patient registration and medical record management features**.
- Connected frontend with backend services using **Axios and REST APIs**.
- Collaborated with team members using GitHub for version control.

LANGUAGE

- English: Professional Working Proficiency
- Sinhala: Native Proficiency
